

Sharing your learning with your teacher through on Teams

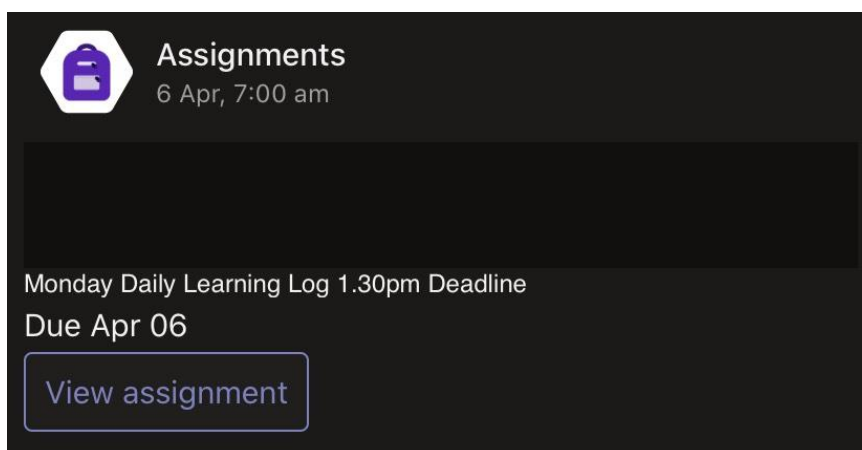

You can share your learning with your teacher through Assignments in Teams.

This is how it works:

- Work posted to your teacher/your child's teacher **before 1.30pm** on any given day will be reviewed and returned **that afternoon**.
- Any work posted to your teacher/your child's teacher **after 1.30pm** will be reviewed and returned **the following day**.

For example, here is the **Daily Learning Log** for Monday 6th April. If you share your work here before 1.30pm on Monday 6th April, the teacher will review and return the work that afternoon.

If you miss the 1.30pm deadline, don't worry - you can post the work to the following day's **Learning Log** - in this case, **Tuesday Daily Learning Log**. It will be reviewed and returned on Tuesday 7th April instead.

Share Learning Anytime

The following day's Learning Log will 'go live' every day at 1.30pm, and remains open until 1.30pm the following day (24 hour window), so you can share your/your child's learning at any time that suits you.
